1. Introduction

The Integrated Development Plan (IDP) is the principal strategic planning document of the municipality. The IDP articulates to the community which part of the longer term spatial development plan (20 to 30 years) of the municipality, the current council will be targeting to achieve during its 5 year term (2022/23 – 2026/27).

It is therefore important that the IDP demonstrates how the municipalities' projects, programmes and activities are coordinated and integrated, both internally between directorates and externally between stakeholders, vested interest groups and other spheres of government. The IDP must ultimately enhance integrated service delivery and development and promote a sustainable, integrated community in the municipality. The IDP provides a view of the complete basket of services which the municipality provides, bearing in mind that communities cannot be developed in a fragmented manner. The priorities identified in the IDP ultimately become the key strategic plan of the municipality and inform the financial planning and budgeting process to be undertaken.

This document discusses and outlines the activities which the municipality will undertake to review the existing IDP and budget, and development of the 2025/2026 IDP review, budget and Service Delivery and Budget Implementation Plan (SDBIP). It is fundamental that citizen involvement is increased through municipal driven structure such as representative forum.

The document sets-out how the municipality intends to engage the community during the upcoming budget process. It is important to bear in mind that the end result of the IDP process is not only to produce an updated IDP document, budget and SDBIP but the actual implementation of projects and service delivery which will ultimately improve the conditions in which the people of Namakwa District Municipality live daily. This document is the municipal council's policy tool to guide the administration and council on when what must take place to ensure a credible and relevant budget process.

2. Legal Framework - IDP and Budget Process Plan¹

¹ To ensure minimum quality standards during the IDP process and a proper coordination between and within the spheres of government, the preparation of the planning process is regulated by the MSA. Section 28 of the MSA stipulates that;

- ❖ Each Municipal Council must adopt a process, in writing, to guide the planning, drafting, adoption and review of the IDP.
- ❖ The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.
- ❖ A municipality must give notice to the local community of particulars of the process it intends to follow.

Section 29(1) of the MSA requires that the process must;

- ❖ be in accordance with a predetermined programme specifying timeframes for the different steps;

Section 28(1) of the Municipal System Act, (Act 32 of 2000) (the MSA) requires the municipal council to adopt a process, in writing, to guide the planning, drafting and review of its IDP. Sections 21 and 53 of the MFMA make the Mayor of the municipality responsible to co-ordinate and integrate the processes of (i) preparing the annual budget and SDBIP and (ii) reviewing the IDP. The MFMA requires that the Mayor tables the time schedule outlining the key activities in the budget process to Council for approval. This must annually be completed by the latest on 31 August of each year (at least ten (10) months before the start of the budget year). The budget process plan, immediately after its approval must be submitted in hard and electronic copies to:

- the National Treasury (lq.documents@treasury.gov.za);
- the Northern Cape Provincial Treasury (ncptmfma@ncpg.gov.za) ; and
- the Department of Cooperative Governance Human Settlement and Traditional Affairs (COGHSTA).

This document outlines the programme Namakwa District Municipality will follow during 2024/2025 and provides detail on the issues required in the MSA and MFMA. A process plan must include the following:

- ❖ A programme specifying time-frames for the different steps;
- ❖ Outline mechanisms, processes and procedures for consultation of the community, organs of state, traditional authorities and role-players;
- ❖ A consultation process for price increases of bulk resources (water, electricity, etc.);
- ❖ Identify all plans and planning requirements binding on the municipality;
- ❖ Be consistent with any other matters prescribed by legislation.

3. Purpose of and reporting against the IDP and Budget Process Plan

The purpose of the process plan is to indicate the various planned activities, strategies and timeframes to compile the 5th generation IDP for the five year cycle (2022/2023 – 2026/2027) -3rd revision 2025/2026, the budget for 2025/2026 and the two outer years including the SDBIP.

The process plan aims to ensure integration and alignment between the IDP, Budget and SDBIP, thereby ensuring the development of an IDP based budget. It fulfils the

-
- ❖ through appropriate mechanisms, processes and procedures allow for the local community to be consulted on its development needs and priorities, allow the local community to participate in the drafting of the IDP, and allow organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the IDP;
 - ❖ Provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation.

role of a business plan or an operational framework for the IDP outlining the manner in which the IDP process will be undertaken. In addition, it identifies the activities in the process around the key statutory annual operational processes in the budget, SDBIP and IDP compilation, performance management implementation and the adoption of the municipality's annual report.

The IDP and Budget processes are two distinct but integrally linked processes which must be coordinated to ensure that the IDP and budget related policies and the final budget and SDBIP are consistent and credible. Credibility refers to the municipality's ability and capacity to spend and deliver services in accordance with its approved budget. The process creates its own dynamics since it involves external role-players and vested interest groups. This requires accurate logistical planning and arrangements of engagement sessions to ensure that the process is implemented in accordance with the approved time schedule.

Experience has taught us that deviation from the approved time schedule may occur due to unforeseen events and circumstances which are beyond the control of the municipal council and the administration. This may require adjustment to the timeframes to ensure that the execution of the process remains practical and that all legislative requirements are adhered to. The Mayor as coordinator of the budget process will regularly inform council, the National Treasury, provincial treasury and the Department of Cooperative Governance Human Settlement and Traditional Affairs (COGHSTA) on progress against the approved targets and timeframes and any adjustments that may be required.

4. Mediums / Methods of informing stakeholders in the IDP and Budget process

The following mediums/methods can be used to inform or communicate to stakeholders at any point in time during the process:

- Road shows and community meetings
- Radio Talk Shows and Announcements
- Newspaper Publications
- Flyers, Posters and Pamphlets
- Community Newsletters

5. Roles and Responsibilities

One of the prerequisites of a well organised IDP process is for all role players to be fully aware of their own as well as other role player's responsibilities. Tables 1 and 2 below outline a brief description thereof.
